Figure 11

Figure 11 is a cross-sectional view of a device assembly. The assembly includes a central horizontal layer (64) with a textured pattern, sandwiched between two angled layers (72, 74). This assembly is supported by a base (70) with a series of small circles (78, 88). The base is further supported by a series of wavy lines (38, 40). The entire assembly is enclosed in a housing (80) with a top flange (82) and a bottom flange (86). A dashed line (90) indicates a boundary or interface. Other labels include 94, 96, 98, 10, 12, 26, 76, and 84.

A cross-sectional view of a multi-layered structure 50. The structure consists of a base layer 68, a middle layer 70, and a top layer 72. A dashed line 74 indicates a boundary or interface. A wavy line 80 is shown on the left side, and a wavy line 90 is shown on the right side. A dashed line 94 is shown on the far left, and a dashed line 98 is shown on the far right. A dashed line 96 is shown in the center, and a dashed line 98 is shown on the right side.

Figure 4 is a schematic diagram of a system 10. It shows a central horizontal section 12 and two side sections 40. The system includes components 42, 43, 45, and 46, with dashed lines indicating connections or boundaries.
